

# About ADULT DAY HEALTH SERVICES

If you have just begun to explore the options available to help you or a family member in need, you most likely have many questions regarding day services. The services provided, admission eligibility, and a variety of other issues, can sometimes seem overwhelming and confusing.

Adult day services is the term given to community-based long-term care programs. The program at Broadlawn Manor provides therapeutic, medical, social, rehabilitative and recreational services with a two-pronged approach:

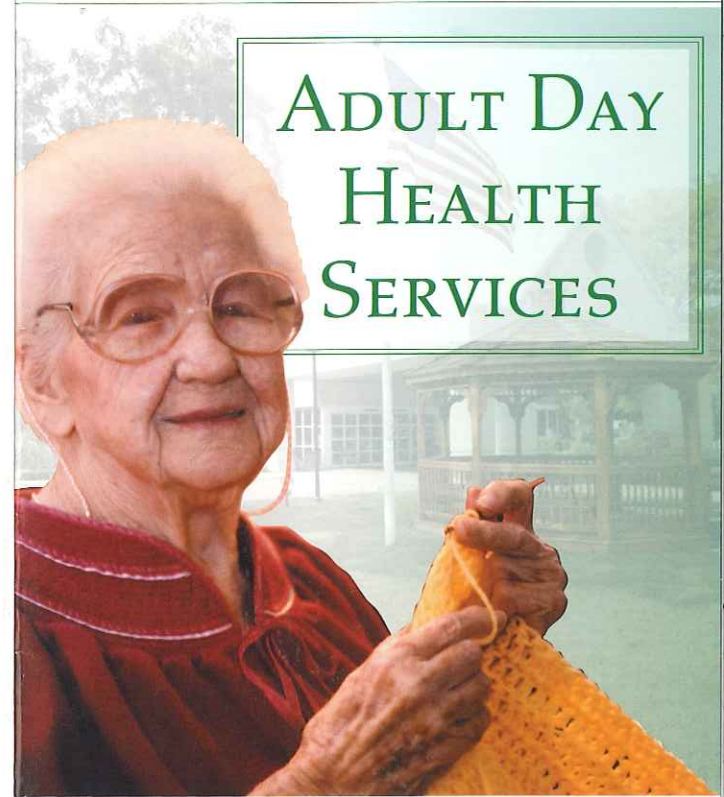

1. To offer a variety of health-based and social services to the medically impaired older adult and disabled.
2. To provide respite to the family members who may be caring for these adults at home.

# BROADLAWN MANOR ADULT DAY HEALTH SERVICES

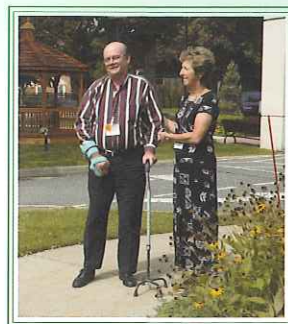

It is a fact that in our society today, the number of elderly Americans is growing as people are living longer. It is also true that the traditional family structure has changed, changing with it the way we care for older adults. If you are a member of the "sandwich generation"—those caring for dependent children as well as aging parents, you know well the extra stresses and strains, and the needs of your parents. If you are one of the growing number of aging adults, you know how important it is to remain somewhat independent, in your home, receiving help when needed. The Adult Day Health Services Program at Broadlawn Manor addresses both these needs.

At Broadlawn Manor, we take an interdisciplinary approach, which is to say that there are many health professionals available to address the needs of our clients.

## The professionals include:

- Medical Director
- Nursing Staff
- Social Workers
- Occupational and Physical Therapists
- Recreational Specialists
- Nutritionists
- Pharmacists

Ancillary services are provided by dentists, podiatrists, audiologists, optometrists, speech pathologists, psychiatrists, psychologists, and pain management specialists. Alternative and holistic services are available.

The Broadlawn Manor Adult Day Health Services Program is open seven days per week (Sunday through Saturday) from 9:00am to 3:00pm. Days of participation will vary depending on individual needs and circumstances. A continental breakfast and hot lunch are provided daily, as well as nutritional supplements.

## Admission Eligibility

After an application is submitted, a personal interview will be conducted. Applicants will be accepted into the program based upon medical need and the recommendation of their family physicians.

Determination of eligibility is based on physical, psychological, and psychosocial impairments that require supervision or medical intervention. Eligibility is also determined by the need for rehabilitative services to restore or maintain optimal level of functioning. Admission to the program is also based on the client's ability to benefit from personalized care, socialization and therapeutic recreational activities.

## Transportation

For those unable to arrange for private transportation to the program, we will provide door through door services.

## Fees

The Adult Day Health Services Program is covered under New York State's Medicaid program. Those not receiving Medicaid services pay directly. Private rate information is available.

## For More Information

If you would like additional information about our program: Please call Monday-Friday 8:30am - 4:00pm at 631-608-5650 or visit our website at [www.broadlawn.org](http://www.broadlawn.org)
